

About ASYA TELECOM, as Background of Business

Asya Telecom was a big after sales company that has engaged in the telecommunication field. (**ASYA TELECOMMUNICATION SAN.TIC.LTD STI**).

It has been established ,on the year 1994, as limited company by two partners,named **Abdurrahman ARIMAN,MSc.E** and **Celal ARAL,MSc.E** who both of them have worked at TRT,Turkish Radio-Television Corporation for long years. Before Asya Telecom,they have jumped to a private electronic firm belong to one of biggest and well known construction group company of TURKEY. And continued their after sales activities between 1986 and 1994, with Mobile Vehicle Phones for the company's Mobira than Nokia Phones and Nokia.

When GSM System has launched in Turkey,they were still in the same company and were single service partner of **ERICSSON**. Upon the Board's decision on not to continue with mobile phones activity,they have undertaken all liabilities , responsibilities,all projects such as servicing activities for Ericsson and contractual rights from ERICSSON and established their fully own company **ASYA TELEKOM** in October 1994.By end this year total of mobile subscriber was around 80.000.In the following years **Asya-T** has enlarged to 12 branch offices at 6 major cities..Its staff has reached to 100 employees by paralleling with growing GSM Sector in Turkey.**Asya-T** has 11 standard level and 2nd-3rd Level authorized service for all regions of TURKEY. Also established and have been certificated an **ADVANCED LABORATORIES(ARC)** at Istanbul,Bayrampasa and Ankara,Bestepe offices... Covering the period of the years 1998-2001,**Asya-T** has kept his organization and executed lots of tasks and did dpa units for all service partners in and out of Turkey .They have progressed with ERICSON .

April.26,2001 Ericsson and Sony have jointly announced the new joint venture sales and marketing company,**Sony Ericsson Mobile.SEM** will start his activity on **01 October,2001**.

Oct.03,2001-The Boards of Ericsson Communications AB and Sony Corporation Inc have approved SEM.

Upon these main crossings for ASYA-T,has gone with SonyEricsson until November 03,2008

SE has moved from Maslak to Umraniye,ISTANBUL..After this date **ASYA-T** has executed his service activity with **SONYEURASIA** and **SONY**.

Between the dates 2008 and 2013,the Mobile Phone Repairing Philosophy has passed big differences.But **Asya-T** has overcome all difficulties always and went on his way successfully.

September,2013-Since the SONY phone sales have dropped under 1% and SONY couldn't deliver enough spare-parts in time ,**ASYA-T** has decided not to go on service activity any more.This decision has been told and explained to SONY EUROASIA.On the other hand,SONY also was waiting such a this case and they were ready to accept it easily.Both parties had made an mutually agreement that go on to delivery units from customer for 'Three Months that is end of December,2013 . December 31,2013-New Ostim Office has closed and moved to Bayrampasa,ISTANBUL .

2014-2105

Asya-T went on to give and send by cargo repaired or unsucceded to repair customer phones until the last one or there is no any back-claim and apply by customers until April 2014.

April,2014-Asya-T has started to liquidate procedure of himself legally.After a certain period,that is nearly one year,and completely stopped his activity in the months **May,2015**.

Last Sentence for **ASYA TELECOM's** brief,

There are no any unevenness,unfair footprint and any bad stain,in their backgrounds but only millions of customer's satisfactions,well trained-educated staff and customers itself.This is unforgettable and valuable proud of our founders...

With kindly thanks to all friends and customers...
